COURSE AND UNIVERSITY POLICIES:

ATTENDANCE POLICY: Class attendance is expected. Keep in mind that your health and safety in our classroom may affect others, so stay home if you are sick.

PERSONAL CONDUCT POLICY: UF students are bound by *The Honor Pledge*, which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at UF, the following pledge is either required or implied: **“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”**”

The Honor Code (<http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions.

Students in Research Methods will exhibit behaviors that reflect highly upon themselves and our University. Further, you are obliged to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please speak with the professor.

EXAM MAKE-UP POLICY: You will take three examinations in the classroom on the scheduled dates. If an emergency arises on an exam date, then a make-up exam should be scheduled as soon as possible. Requirements for make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalog at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

A student experiencing an illness should visit the UF Student Health Care Center or their preferred healthcare provider to seek medical advice. If you have an illness, family emergency or death, please contact the Dean of Students Office (www.dso.ufl.edu) and follow the DSO Care Team procedures for documentation and submission of a request for make-up assignment (<https://care.dso.ufl.edu/instructor-notifications/>). The DSO will contact Dr. Cauraugh with a recommendation. Keep in mind that you should not provide any documentation to Dr. Cauraugh regarding an illness or family emergency. This is your personal, private, and protected information. The DSO is qualified to receive and verify the documents you provide.

ACCOMMODATING STUDENTS WITH DISABILITIES: Students requesting accommodation for disabilities must first register with the Dean of Students Office (<http://www.dso.ufl.edu/drc/>). The DSO will provide

documentation to the student who must then provide this documentation to the professor when requesting accommodation. You must submit this documentation before taking the first exam. Accommodations are not retroactive; therefore, students should contact the office early in the semester. Arrangements will be made for taking exams in consultation with the professor.

COURSE EVALUATION: Students are expected to provide **professional and respectful feedback** on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

SUCCESS, MOTIVATIONAL PERSPECTIVE, & OATH FOR SCIENTISTS:

Your Research Methods experiences will be meaningful given that you actively use the information in the *eBook* as well as the information presented and discussed in lectures. Enjoy this exposure to the scientific arena. The teaching style of this course is primarily reciprocal interaction with frequent, relevant questions used to practice retrieval of concepts. You must be able to use this knowledge in different situations. Our frequent research interactions will be more enjoyable if you relax and expect that I will ask you at least one question every class. In this flipped classroom, you should read the *eBook* chapters before class and be prepared to speak about scientific concepts. Student answers and questions are encouraged at any time during our interactions. Importantly, the information for this course is readily learned when students give sincere efforts and embrace the topics. **Be a student who attains her or his intellectual potential!**
