

Curriculum Vita

Name: David S. Criswell

Office: Department of Applied Physiology & Kinesiology
P.O. Box 118205
University of Florida
Gainesville, FL 32611
ph# (352) 392-9575 (ext. 1399)
fax: (352) 392-0316
e-mail: dcriswell@hhp.ufl.edu

Education:

Institution / Location	Degree	Year	Field
Univ. of Texas Med. School / Houston, TX	[Post-doc]	1994-1997	Molecular Biology/Skeletal muscle adaptation to disuse.
University of Florida / Gainesville, FL	Ph.D.	1994	Health & Human Performance (Exercise Physiology)
University of Florida / Gainesville, FL	M.S.	1990	Exercise Physiology
University of Mississippi / Oxford, MS	B.S.	1988	Biology (<i>magna cum laude</i> graduate)

Research and Professional Experience:

July 2006 – present

Associate Professor
University of Florida
Department of Applied Physiology & Kinesiology
Gainesville, Florida 32611

August 2001 – June 2006

Assistant Professor
University of Florida
Department of Applied Physiology & Kinesiology

September 1997 – August 2001

Assistant Professor
Texas Woman's University
Department of Kinesiology
Denton, Texas 76204

August 1998 – May 2000 (*concurrent with TWU position*)

Physiology Instructor – Part-time adjunct faculty
Tarrant County College System – Northeast Campus
Department of Natural Sciences

September 1994 – August 1997

Post-Doctoral Research Fellow (Supervisor: Frank W. Booth, Ph.D.)
Department of Integrative Biology
University of Texas Medical School, Houston
Houston, Texas 77030

August 1995 – May 1997 (*concurrent with UT-Houston position*)

Biology Instructor – Part-time adjunct faculty
Houston Community College System – Southwest College
Department of Science and Technology

Research and Professional Experience (con't):

August 1989 – June 1993

Laboratory Instructor (Supervisor: Scott K. Powers, Ph.D., Ed.D.)

Applied Physiology Laboratory

Department of Exercise and Sport Sciences

University of Florida

Gainesville, Florida 32611

Professional Organizations:

American College of Sports Medicine, Fellow

American Physiological Society

Professional Service:

Chaired Symposium (Nitric Oxide Signaling in Skeletal Muscle) at 2005 ACSM National meeting.

Reviewer for the following journals:

*American Journal of Physiology: Cell Physiology**American Journal of Physiology: Regulatory, Integrative, and Comparative Physiology**Journal of Applied Physiology**International Journal of Sports Medicine**Medicine and Science in Sports and Exercise**Canadian Journal of Applied Physiology**Acta Physiologica Scandinavica**Cellular and Molecular Life Sciences**Pharmacological Research**Antioxidant and Redox Signaling**European Journal of Sports Sciences***Direction of Graduate Students (chaired or co-chaired committee):**

Master's Students	Year	Thesis Title (Institution)
Martha A. Cottingham	1999	Effect of oral contraceptives on peripheral blood flow in untrained women at rest and during exercise. (Texas Woman's University)
Matthew Samuels	2000	Effect of a moderate-fat diet on endurance time-to-exhaustion and physiological adaptations in male Sprague-Dawley rats. (Texas Woman's University; <i>co-chaired with Nance DiMarco</i>)
K. Leigh Greathouse	2001	Effects of a high monounsaturated fat diet and moderate exercise on skeletal muscle lipid peroxidation and antioxidant capacity in male rats. (Texas Woman's University)
Lori W. Smith	2001	The role of nitric oxide synthase in skeletal muscle adaptation to chronic overload. (Texas Woman's University)
Kathryn M. Henry	2001	Effects of exercise training on the cytokine response to endotoxin in the plasma and heart. (Texas Woman's University; <i>co-chaired with Bruce Grossie</i>)
Jenna L. Betters	2003	Trolox and mechanical ventilation-induced diaphragmatic dysfunction. (University of Florida)
Jeff E. Sellman	2005	Nitric oxide affects gene expression in overloaded skeletal muscle. (University of Florida)
Dana L. Brown	2008	Nitric oxide synthase activity mediates activation of AMP-associated protein kinase in isolated mouse skeletal muscle. (University of Florida)
Doctoral Students	Year	Dissertation Title (Institution)
Jenna L. Betters	2007	Reduced sensitivity to nitric oxide limits satellite cell activity on cultured myofibers from aged mice. (UF)

Jodi H.D. Long	2007	Glucocorticoid-induced myopathy is mediated by impaired nitric oxide synthesis. (UF)
Jason A. Drenning	2008	Nitric oxide facilitates NFAT activity through Akt-induced GSK-3 beta phosphorylation. (UF)
Quinlyn A. Soltow	2008	Biphasic effects of nitric oxide on skeletal muscle myotube atrophy. (UF)
Vitor A. Lira	2008	Nitric oxide-dependent regulation of AMPK and PGC-1 α in skeletal muscle. (UF)

Courses Taught:Undergraduate*Houston Community College*

General Biology

TWU

Kinesiology (KINS 2593)

Physiology of Exercise (KINS 3602)

Tarrant County College

Anatomy and Physiology (BIOL 2401)

University of Florida

Physiology of Exercise & Training (APK3110C)

Physical Fitness Assessment (APK 4125C)

Neuromuscular Aspects of Exercise (APK 4115)

Graduate*TWU*

Advanced Exercise Physiology (KINS 5553)

Strength and Physical Fitness (KINS 5653)

Hormonal Responses to Exercise (KINS 5583)

Physiological Assessment (KINS 5563)

Seminar in Exercise Science (KINS 5903)

Methods of Research (KINS 5023)

Research Designs (KINS 6143)

University of Florida

Neuromuscular Adaptations (APK6118)

Molecular Signaling in Muscle (PET5936)

Research Funding:

<i>Currently Funded Grants</i>				
Agency	Title	Total Budget	Dates	Role
NIH	Mechanical ventilation and diaphragmatic oxidant injury.	\$1,636,875	2005-2010	Co-I
<i>Completed Grants</i>				
American Heart Assoc.	Phenotype coordination in active skeletal muscle cells.	\$260,000	2005-2008	PI
American College of Sports Medicine	Nitric oxide and the regulation of GLUT4 and UCP3 in muscle.	\$5,000	2006-2007	PI
NIH	Exercise, antioxidants, and I-R injury.	\$1,317,512	2003-2005	Co-I
American Lung Assoc.	Aging, oxidant stress, and mechanical ventilation-induced diaphragmatic contractile dysfunction.	\$70,000	2002-2004	PI
HHP Opportunity Fund (College)	Mechanisms of oxidant-induced nuclear apoptosis in adult skeletal myofibers.	\$5,000	2005	PI
UF Opp. Fund	Nitric oxide and stretch induced myotube growth.	\$85,000	2004	PI
Muscular Dystrophy Association	Oxidative Stress and Inflammatory Cell Signaling in the Diaphragm and Limb Muscles of mdx Mice.	\$75,000	2003-2004	Co-I
TWU Research Enhancement Program	The role of nitric oxide as a potential mediator of the overload-induced hypertrophy response in the rat plantaris.	\$6,000	2000	PI
TWU Research Enhancement Program	Effects of L-arginine supplementation on muscle power and blood flow in female college athletes.	\$6,000	1999	PI

National and International Research Presentations:

1. Nitric oxide Synthase Expression is Required for Akt Signaling in Mouse Skeletal Muscle. (Poster) *American Heart Association National Research Symposium*, New Orleans, LA, November 2008.
2. Prednisolone-induced dysfunction of skeletal muscle satellite cells is reversed by nitric oxide. (Poster) 54th Annual Meeting of the *American College of Sports Medicine*, New Orleans, LA, June 2007.
3. Nitric oxide is a Master Controller of Skeletal Muscle Phenotype. (Symposium Lecture) *Southeastern American College of Sports Medicine Annual Meeting*, Charlotte, NC, Feb. 10, 2007.
4. NOS inhibition prevents AMPK induction of GLUT4 mRNA in L6 myotubes. (Poster) *Experimental Biology Meeting*, San Francisco, CA, April 3, 2006.
5. Nitric oxide and control of skeletal muscle gene expression in response to contractile activity. (Symposium Lecture) 52nd Annual Meeting of the *American College of Sports Medicine*, Nashville, TN, June 2005.
6. The Role of Skeletal Muscle in Metabolic Control. (Invited Seminar) *International Symposium on Physical Activity*, Rio de Janeiro, Brazil, November 5, 2004.
7. The Regulation of Muscle Hypertrophy by Training Load. (Invited Seminar) *International Symposium on Physical Activity*, Rio de Janeiro, Brazil, November 5, 2004.
8. Skeletal Muscle Overload is Associated with Nitric Oxide-Dependent Induction of Cyclooxygenase-2 mRNA. (Poster) *Integrative Biology of Exercise, APS Intersociety Meeting*, Austin, TX, October 9, 2004.
9. L-NAME Prevents Stretch-Induced Increases in Myotube Size and Nuclear Number. (Free Communication-Slide) 51st Annual Meeting of the *American College of Sports Medicine*, Indianapolis, IN, June 2004.
10. Nitric oxide synthase activity is necessary for induction of IGF-1 mRNA in overloaded skeletal muscle. (Free Communication-Slide) 50th Annual Meeting of the *American College of Sports Medicine*, San Francisco, CA, May 28-June 1, 2003.
11. Role of nitric oxide synthase in skeletal muscle adaptation to chronic overload. (Poster) 48th Annual Meeting of the *American College of Sports Medicine*, Baltimore, MD, May 29-June 2, 2001.
12. Effect of oral contraceptives on peripheral blood flow in untrained women at rest and during exercise. (Poster) 46th Annual Meeting of the *American College of Sports Medicine*, Seattle, WA, June 2 -5, 1999.
13. The Nerve-Responsive Troponin-I Slow Promoter does not Respond to Unloading. (Poster) 45th Annual Meeting of the *American College of Sports Medicine*, Orlando, FL, June 3 -6, 1998.
14. Over-expression of IGF-I in Skeletal Muscle Does Not Prevent Unloading-Induced Atrophy. (Poster). 44th Annual Meeting of the *American College of Sports Medicine*, Denver, CO, May 28 - 31, 1997.
15. A Model for the Study of Skeletal Muscle Gene Regulation in the Mouse. (Poster). 43rd Annual Meeting of the *American College of Sports Medicine*, Cincinnati, OH, May 29-June 1, 1996.
16. Regulation of Contractile Protein Gene Expression in Unloaded Mouse Skeletal Muscle. (Invited Symposium). 17th Annual Meeting of the *International Society for Gravitational Physiology*, Warsaw, Poland, April 14-19, 1996.
17. Mechanisms of specific force deficit in the senescent rat diaphragm. (Poster). 42nd Annual Meeting of the *American College of Sports Medicine*, Minneapolis, MN, May 31-June 4, 1995.
18. Diaphragmatic resistance to hyperthyroidism. (Poster). 41st Annual Meeting of the *American College of Sports Medicine*, Indianapolis, IN, June 1-4, 1994.
19. Morphological and phenotypic alterations in the soleus muscle of adult rats following clenbuterol treatment. (Poster). Annual meeting of the *Southeast Chapter of the American College of Sports Medicine*, Greensboro, NC, January 19-23, 1994.
20. Effects of elastase-induced emphysema on the metabolic capacity of canine respiratory muscles. (Poster) *Federation of American Societies for Experimental Biology Annual Meeting*, New Orleans, LA, March 28 - April 1, 1993.

21. Biochemical verification of quantitative histochemical analysis of succinate dehydrogenase activity in skeletal muscle fibers. (Slide). 39th Annual Meeting of the *American College of Sports Medicine*, Dallas, TX, May 27 - 30, 1992.
22. Cellular oxidative and antioxidant response in skeletal muscle to interval and continuous exercise training. (Poster). 38th Annual Meeting of the *American College of Sports Medicine*, Orlando, FL, May 29 - June 1, 1991.
23. Influence of a carbohydrate-electrolyte beverage on blood homeostasis during football. (Poster) *American Physiological Society Specialty Meeting*, Orlando, FL, October 6-10, 1990.
