

APPLIED HUMAN ANATOMY WITH LAB

APK 2100c ~ 4 CREDITS ~ FALL 2017

“The human head is of the same approximate size and weight as a roaster chicken. I have never before had occasion to make the comparison, for never before today have I seen a head in a roasting pan.”

— Mary Roach, Author of *Stiff: The Curious Lives of Human Cadavers*

INSTRUCTOR:

Joslyn Ahlgren, Ph.D.

Office: FLG 108

Office Phone: 352-294-1728

Email: jahlgren@ufl.edu

Preferred: CANVAS email

OFFICE HOURS:

Office hours will be posted in CANVAS and students may request private meetings or moving meetings (walk and talk) via CANVAS email.

LECTURE TIME/LOCATION: MWF Period 2 (8:30-9:20am) / WEIM 1064

LAB TIME/LOCATION:

SECTION	LAB DAY AND MEETING TIME	LAB LOCATION
2094	W Period 4 - 5 (10:40 AM - 12:35 PM)	FLG 107B
2095	W Period 3 - 4 (9:35 AM - 11:30 AM)	FLG 107A
2096	W Period 6 - 7 (12:50 PM - 2:45 PM)	FLG 107B
2097	R Period 2 - 3 (8:30 AM - 10:25 AM)	FLG 107B
2098	R Period 4 - 5 (10:40 AM - 12:35 PM)	FLG 107A
2099	R Period 5 - 6 (11:45 AM - 1:40 PM)	FLG 107B
5640	R Period 6 - 7 (12:50 PM - 2:45 PM)	FLG 107A
5716	M Period 4 - 5 (10:40 AM - 12:35 PM)	FLG 107B
8081	T Period 5 - 6 (11:45 AM - 1:40 PM)	FLG 107B
8093	F Period 5 - 6 (11:45 AM - 1:40 PM)	FLG 107B

COURSE FORMAT: Students will attend live lectures three times each week (MWF 2) and live lab once each week (2 period-block...see table above). Students should read required textbook pages and print out or download PDF lecture slides before coming to lecture and lab.

COURSE DESCRIPTION: This anatomy course will describe the human body from a systemic approach. This course covers not only gross anatomy of the body's organs and systems, but also the functionally significant microscopic/histological aspects of these

structures. The following systems will be covered in this course: **integumentary, circulatory, musculoskeletal, respiratory, digestive, urinary, nervous, and reproductive.**

PREREQUISITE KNOWLEDGE AND SKILLS: There are no prerequisites for this course; however, any previous experiences in medical terminology, physiology, physics, chemistry, and/or biology will be helpful to students.

GENERAL EDUCATION SUBJECT AREA OBJECTIVES: Biological science courses provide instruction in the basic concepts, theories and terms of the scientific method in the context of the life sciences. Courses focus on major scientific developments and their impacts on society, science and the environment, and the relevant processes that govern biological systems. Students will formulate empirically-testable hypotheses derived from the study of living things, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments. *The course purpose explains how these objectives will be met.*

PURPOSE OF COURSE: The purpose of this course is to introduce students to anatomy (the study of the body’s structures) and to present information and engage students in a way that promotes critical and creative thinking within the context of health and movement studies. Students will be asked to not only identify important structures of the human body, but also to incorporate some of the functions of the structures and tissues so that the information can be applied to novel, clinical scenarios. This applied method of teaching anatomy is intended to enhance the long-term retention of the concepts covered and prepare students for future courses and experiences which may require health or movement-based communication and problem solving.

COURSE GOALS: The following table describes the UF General Education student learning outcomes (SLOs) and the specific course goals for APK 2100c. By the end of this course, students should be able to:

Gen Ed SLOs	APK 2100c Course Goals	Assessment Methods
Content: Demonstrate competence in the terminology, concepts, methodologies and theories used within the discipline.	<ul style="list-style-type: none"> • Identify and describe gross and microscopic structures of the organ systems covered. • Describe the relationship between structure and function at all levels of organization (cellular, tissue, organ, system, organism). 	<ul style="list-style-type: none"> • Homework problems • All lecture exams • Lab exams 1 & 2
Communication: Communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the discipline.	<ul style="list-style-type: none"> • Communicate with peers and professionals using anatomical terminology. 	<ul style="list-style-type: none"> • Oral communication assessment using anatomical models

<p>Critical Thinking: Analyze information carefully and logically from multiple perspectives, using discipline specific methods, and develop reasoned solutions to problems.</p>	<ul style="list-style-type: none"> • Predict functions of unknown body structures if given the anatomical make-up or vice-versa (predict anatomical make-up of body structures if given clues about function). • Predict potential causes of disease/injury symptoms from a functional anatomy perspective. 	<ul style="list-style-type: none"> • Clinical scenario homework problems • All lecture exams • Lab Exam 1
---	---	--

REQUIRED MATERIALS: Please note that APK2100 will be participating in the UF All Access program this semester. Students will have two options to gain access to the required MasteringA&P materials when classes begin. Students will have a choice to “Opt-In” to MasteringA&P access through a link provided in CANVAS for a reduced price and pay for these materials through their student account. Students who do not choose this option will be able to purchase a standalone code through the UF Bookstore. Both options provide access to the same online materials. There will also be a discounted, loose-leaf version print version of the textbook available at the UF Bookstore for students who would like a printed resource for the course.

Textbook: Human Anatomy by Marieb, Wilhelm, Mallatt, 8th edition. Pearson.

COURSE POLICIES:

ATTENDANCE POLICY: Attendance will be taken in lab. Attend the lab section for which you are enrolled, not the one most convenient for you on any given day. If you have to miss your lab for any reason, please make arrangements with your TA to attend another lab section that week. Although attendance is not required (no points), it is absolutely IMPERATIVE for your success in this course.

PERSONAL CONDUCT POLICY: Students are expected to exhibit behaviors that reflect highly upon themselves and our University:

- Read and refer to the syllabus
- Arrive to lecture and lab on time (a few minutes early)
- Show respect for the authority of the course instructor and graduate TAs through politeness and use of proper titles (e.g., “Dr. Ahlgren” or “Doc. A”)
- Use of professional, courteous standards for all emails and discussions:
 - Descriptive subject line
 - Address the reader using proper title and name spelling
 - Body of the email should be concise but have sufficient detail
 - Give a respectful salutation (e.g., thank you, sincerely, respectfully)
 - No textspeak (e.g., OMG, WTH, IMO)

- No texting or checking Face Book (or the like) during class/lab instruction time
- No personal conversations during class/lab instruction time
- Adherence to the UF Student Honor Code:
<https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>
 - Honor code violations of any kind will not be tolerated and sanctions will be determined by the course instructor for first-time violators
 - Any use, access, or handling of technology during an exam will result in a zero on the exam **and** potential failure of the course
 - All allegations, regardless of the severity, will be reported to the Dean of Students Office for University-level documentation and processing

EXAM MAKE-UP POLICY: Make-up exams will be given at the discretion of the instructor. To schedule a make-up exam, please fill out the **make-up exam request form** posted in CANVAS and submit it to your course instructor. Documentation will be required. Unexcused missed exams will result in a zero on the exam (this includes contacting the instructor **after** the exam if you are ill). **You are absolutely not permitted a make-up exam for personal travel/vacations, so please make your travel arrangements accordingly.** If you have a serious emergency or life event, please contact the Dean of Students Office (www.dso.ufl.edu) and they will contact your instructor so that you do not have to provide documentation of the emergency/death in order to get a make-up exam. Requirements for class attendance and make-up exams, assignments, and other work are consistent with the university policies that can be found at <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

UNIVERSITY POLICY ON ACCOMMODATING STUDENTS WITH DISABILITIES: Students requesting accommodation for disabilities must first register with the Dean of Students Office (<http://www.dso.ufl.edu/drc/>). The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. You must submit this documentation prior to submitting assignments or taking the quizzes or exams. Accommodations are not retroactive, therefore, students should contact the office as soon as possible in the term for which they are seeking accommodations.

Students registered with the DRC: You will take your *lab exams* in the anatomy lab, not at the DRC – thus there is no need to sign up for an exam time for those. Please watch CANVAS announcements for dates/times of the accommodated lab exams. If you cannot make the posted exam time, then please contact your course instructor asap to make alternate arrangements. I strongly recommend that you submit all *lecture exam* requests through the DRC *in the first week of classes* to ensure that they are approved in a timely manner.

UNIVERSITY POLICY ON COURSE EVALUATIONS: Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at <https://evaluations.ufl.edu>. Evaluations are

typically open during the last two or three weeks of the semester, but students will be given specific times when they are open.

GRADING POLICIES:

The following table outlines the point-accruing components of the course. The total points earned from each component will be summed and divided by 700.

Evaluation Components (number of each)	Points Per Component	Approximate % of Total Grade
Lecture Exams (4)	60 pts each = 240 pts	$240/700 = 34.5\%$
Homework (4)	50 pts each = 200 pts	$200/700 = 28.5\%$
Lab Exams (2)	100 pts each = 200 pts	$200/700 = 28.5\%$
Communication Assessment (1)	10 pts each = 10 pts	$10/700 = 1.5\%$
Comprehensive Final (1)	50 pts each = 50 pts	$50/700 = 7\%$
Extra Credit	15 points possible	0%

Lecture Exams – Each exam will consist of 40 questions, 1.5 points per question. Questions will be multiple choice and true/false. Students are not permitted access to any kind of materials or notes during these exams. Exam questions are generated by the course instructor and the majority of focus should be given to the lecture notes when studying. Students will take exams in the same room where weekly meetings are held and will be allowed 45 minutes to complete the exam. **Students may not take the first lecture exam until the syllabus quiz has been completed.**

Homework – Each of the four homework assignments is due at the time of the corresponding exam. Homework problems are multiple choice, true/false, fill in the blank, and matching. These questions are specific to the textbook, so that should be your primary resource for answering those questions. **For the fill in the blank questions, spelling and proper tense of the word counts.** These assignments are NOT intended to be used as the primary study tool for preparing for the exams. The function of the homework assignments is to (a) get students more familiar with the textbook, and (b) to get students eased into answering anatomy questions. It is **not** prudent to complete the homework at the last minute as a “practice test.”

The following are specific homework grading guidelines to keep in mind:

- You may open/close an assignment as many times as you wish until it is due.
- For multiple choice and fill-in-the-blank questions, you are penalized 50% if you miss on the first attempt and 100% if you miss on the second attempt. For true/false questions, you are penalized 100% if you miss on the first attempt.
- You are penalized a small fraction for opening a hint if one is available.

- **Late submissions of homework will not be accepted.** However, if you complete some of the questions, but fail to complete all questions prior to the deadline, those completed will be automatically submitted at the due date/time and added to the gradebook....so, you are encouraged to complete questions as you go.

Lab Exams – Lab exams are 80 questions, 1.25pts per questions. These exams are practical “bell-ringer” exams in which the student moves from station to station identifying gross anatomical structures on plastic models. These exams consist of 40 stations, 2 questions per station, and students have 40 minutes to complete the exam. Students will be asked to sign up for a lab exam time. Sign-up sheets will be available in the study lab the week preceding the exam. **Students who do not arrive on time (i.e., 10 minutes early) for their exam will need to wait outside the lab for the next exam time. If there is not room in the next exam time, the student will need to continue waiting until an opening is available. If there are no more exams, then the student will take a written make up exam.**

Communication Assessment – Students will be assessed on their ability to effectively communicate using anatomical terminology. Students will select any lab model and orally describe the model and answer basic questions about it. A grading rubric for this assessment will be posted in CANVAS for you to use to prepare. Please work with your lab TA to schedule and complete this assessment.

Comprehensive Final – The final exam will consist of 80 multiple-choice and true-false questions, each worth 0.625 pts. You will be allowed two hours to complete this exam. The exam will be held in the same room where lectures and midterm exams are given. A guide will be posted in CANVAS to assist you in studying for this exam. Students are encouraged to wait until after the last midterm to focus on this guide.

Extra Credit - Students can earn up to 15 points of extra credit in this course. Each lab TA will assign extra credit differently, so it is the students’ responsibility to learn their TA’s policies for earning extra credit. Up to 5 of the 15 points of extra credit can be earned for participating as a subject in an approved research study. Approved studies will be announced in CANVAS throughout the semester. Participation in a research study is NOT necessary to earn the maximum amount of extra credit. Participation in a research study CANNOT earn you more than 15 points of extra credit. If you do participate in a study, the study coordinator will give your name and extra credit points to the Anatomy Lab Coordinator at the *end of the semester*. **All extra credit points will be uploaded to the gradebook prior to the last day of classes. Any discrepancies must be brought to the attention of your TA before 5pm on the last reading day.**

GRADING SCALE: Any discrepancies with points displayed in the gradebook should be pointed out to the instructor before the final exam. **There is no curve for this course and final grades will not be rounded up.** See the UF undergraduate catalog web page for information regarding current UF grading policies:

www.registrar.ufl.edu/catalog/policies/regulationgrades. *Any requests for additional extra credit or special exceptions to these grading policies will be interpreted as an honor code violation (i.e., asking for preferential treatment) and will be handled accordingly.*

Minus grades are not assigned for this course. A minimum grade of C is required for all General Education courses, such as this one.

Letter Grade	Points Needed to Earn Each Letter Grade	Percent of Total Points Associated with Each Letter Grade	GPA Impact of Each Letter Grade
A	≥ 630	90.00-100%	4.0
B+	609-629.99	87.00-89.99%	3.33
B	560-608.99	80.00-86.99%	3.0
C+	539-559.99	77.00-79.99%	2.33
C	490-538.99	70.00-76.99%	2.0
D+	469-489.99	67.00-69.99%	1.33
D	420-468.99	60.00-66.99%	1.0
E	≤ 419.99	0-59.99%	0

GETTING HELP:

For issues with technical difficulties for CANVAS, please contact the UF Help Desk at:

- helpdesk@ufl.edu
- (352) 392-HELP - select option 2
- <https://request.it.ufl.edu/>

Any requests for make-ups due to technical issues MUST be accompanied by the ticket number received from Helpdesk when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

Other resources are also available for you:

- Disability resources
<https://www.dso.ufl.edu/drc/>
- Library Help Desk
<http://guides.uflib.ufl.edu/content.php?pid=86973&sid=686381>
- Counseling and Wellness
<http://www.counseling.ufl.edu/cwc/Self-Help-Library.aspx>

COURSE SCHEDULE:

The following table represents current plans for the term. Any changes to this plan will be posted in CANVAS as an announcement.

Week	Dates	Lecture Topic (required reading pages)	Lab
1	Aug 21-25	Ch.1 – Intro to the Body (1-9, 11-13) <i>No lecture on Wed 8/23</i> Ch. 2 – Cells (22-35)	No Lab (use this time to locate the lab and print/download your lab slides)
2	Aug 28- Sep 1	Ch. 2 – Cells continued Ch. 4 – Tissues (64-97)	Lab 1 - Axial Skelton (Corresponds with Ch. 7)
3	Sep 4-8	<i>Mon, Sep. 4th is a holiday...no class or labs</i> Ch. 4 – Tissues continued Ch. 5 – Integumentary (103-116)	Lab 2 - Appendicular Skeleton (Corresponds with Ch. 8) <i>Mon labs attend a different section</i>
4	Sep 11-15	Exam 1 – Mon, Sep 11 (HW 1 due at 8:30am) Ch. 6 – Skeletal (123-140)	Bones Continued
5	Sep 18-22	Ch. 9 – Articulations (208-221) Ch. 10 – Muscular (241-254)	Lab 3 - Muscles: Upper Body
6	Sep 25-29	Ch. 10 – Muscular continued Ch. 11 – Muscles (262-266, 268-271)	Lab 4 - Muscles: Lower Body
7	Oct 2-6	Ch. 11 – Muscles continued <i>Fri, Oct. 6th is homecoming...no class or labs</i>	Review and Practice Practical <i>Fri labs attend a different section</i>
8	Oct 9-13	Exam 2 – Mon, Oct 9 (HW 2 due at 8:30am) Ch. 12 – Intro to Nervous (349-364) Ch. 13 – CNS (374-377, 401-412, Optional: 378-400, 413-419)	Lab Exam 1 Mon Oct 9 and Tues Oct 10
9	Oct 16-20	Ch. 13 – CNS continued Ch. 14 – PNS (427-428, 432-446, 459-460)	Lab 5 - Articulations, Skin, Eyes/Ears
10	Oct 23-27	Ch. 14 – PNS continued Ch. 15 – ANS (467-476, 480)	Lab 6 - Nervous System
11	Oct 30- Nov 3	Ch. 15 – ANS continued Exam 3 – Wed, Nov 1 (HW 3 due at 8:30am) Ch. 19 – The Heart (562-574, 577-580)	Labs 7 – Circulatory System
12	Nov 6-10	Ch. 19 – The Heart continued Ch. 20 – Vessels (588-597, 616--hepatic portal) <i>Fri, Nov. 10th is a holiday...no class or labs</i>	Labs 8 & 9 – Respiratory & Digestive Systems <i>Fri labs attend a different section</i>
13	Nov 13-17	Ch. 20 continued Ch. 22 – Respiratory (645-663) Ch. 23 - Digestive (675-711)	Labs 9 & 10 – Digestive & Urinary/Reproductive
14	Nov 20-24	Ch. 23 – Digestive continued <i>Wed-Fri, Nov. 22-24 is a holiday...no class or labs</i>	<i>Holiday...no labs this week</i>

15	Nov 27- Dec 1	Ch. 24 - Urinary (720-736) Ch. 25 – Reproductive (743-752, 755-759, 766-767) Exam 4 – Fri, Dec 1 (HW 4 due at 8:30am)	Review and Practice Practical
16	Dec 4-8	Mon: lab exam – no class Wed: optional review for final exam Fri: reading day – no class	Lab Exam 2 Mon Dec 4 and Tues Dec 5
Comprehensive Final Exam – CSE A101 – Wed, Dec 13th – 7:30-9:30am			

STUDY TIPS FOR DOC. A's CLASS:

- Read from the text BEFORE attending lecture. Do not take notes, underline, highlight, or attempt to memorize anything...JUST READ and enjoy!
- Snow-ball the lecture notes. Begin studying lecture material immediately after the first lecture. Then, after the second lecture, begin your studies with day one lecture material. Continue this all the way up to the exam.
- If there is something in the textbook that was NOT in lectures, you are not expected to know it. There is a lot in the text that we don't have time to cover.
- Re-write questions. Taking complex questions and breaking them down to identify exactly what the question is REALLY asking for is very helpful. It is also very helpful to look at incorrect answer choices and identify what makes those choices wrong. Ask yourself, "How could I make that statement correct?" **You can practice this with the critical thinking questions at the end of each chapter.**
- Google novel images. For example, if there is a picture of the brainstem in your notes, Google "brainstem images" and see if you can identify the structures from the lecture.
- Google diseases or drug mechanisms of action. For example, if we are studying bone tissue, Google "bone disease". Click on any link and just read a paragraph to see if you can understand based on what you now know about bone tissue anatomy. If you don't understand it, that's okay...did you recognize any words?

SUCCESS TIPS FOR DOC. A's CLASS:

- Do not fall behind. This course moves at a FAST pace...and you can easily get overwhelmed if you procrastinate. Avoid studying at the last minute. Complete the homework as you go...do not leave it for the day before the exam.
- Stay organized. Keep track of all important due dates and move through each day in a uniform manner so that you are always aware of what you have done and what is left to be completed.
- Check CANVAS announcements/emails daily...just pretend it is Facebook for school. Your course instructor will post important and helpful information (such as friendly reminders of due dates) as announcements.
- Utilize the Undergraduate Teaching Assistants (UGTAs). These students have earned an A in my course recently and can help you with both lecture and lab.
- Have a positive attitude! THIS STUFF IS COOL!

PERSONAL NOTE FROM DOC. A:

If you are totally overwhelmed by the stresses of your semester and feel like you just can't handle the pressure, please contact me or someone at UF's Counseling and Wellness center (<http://www.counseling.ufl.edu/cwc/Self-Help-Library.aspx>). I genuinely care for my students' wellbeing. Without you, I would have no one to teach...and that's uncool. Please take care! ~Doc. A
