COURSE DESCRIPTION

Provides Athletic Trainers with specific knowledge of learning theories, teachings methods, clinical transition to practice, and the role of mentorship and professional engagement in athletic training.

PREREQUISITE KNOWLEDGE AND SKILLS

Admission into the Doctor of Athletic Training program.

REQUIRED AND RECOMMENDED MATERIALS

Students must have access to a laptop or tablet with University of Florida secure wi-fi access. Resource materials for the course are available within Canvas or provided by the instructor. Instructional materials for this course consist of only those materials specifically reviewed, selected, and assigned by the instructor(s). The instructor(s) is only responsible for these instructional materials.

COURSE FORMAT

The course consists of information sharing through discussion, lecture, and interactive/applied learning experiences for 3.0 contact hours per week. Canvas e-learning platform will provide students with content to supplement discussions, details regarding assignment expectations and grading criteria/rubrics, and serve to assist the student with applicable resources for success within the Doctor of Athletic Training Program. Student participation is an important component of this course. To maximize the opportunity for class discussion, students should read the appropriate materials before class. Students will complete applied learning experiences and various assignments to ensure comprehension and application of advanced concepts within Athletic Training.

COURSE LEARNING OBJECTIVES:

1. **Examine** leadership and management concepts, including characteristics, strategies, and styles, which influence athletic training clinical practice.
2. **Appraise** various methods of teaching, learning, and clinical mentorship employed by athletic trainers and/or healthcare providers.
3. **Discuss** employment trends influencing job satisfaction and retention within the profession (e.g., professional and personal goals, priorities, and career milestones)
4. **Examine** the influence of effective communication skills, quality teamwork, and positive inter-professional relationships on patient care outcomes.
5. **Identify** and **discuss** the benefits of professional engagement, networking, and advocacy for athletic trainers.

ATTENDANCE AND PARTICIPATION POLICY

Attendance is mandatory. Students must attend class to successfully reach the learning outcomes for the course. Please notify the instructor via email regarding absences at least 24 hours prior to the class. University [guidelines](#) will determine excused vs. unexcused for the absence.

PERSONAL CONDUCT POLICY

- Please conduct yourself in a respectful and responsible manner
- Please be on time for class
- Please turn off or silence your cell phones
- Please do not participate in actions that may disrupt the class
- Please stay home if you feel unwell and notify instructor via email
- The instructor reserves the right to ask any student to leave the classroom, if the student violates any the above classroom expectations.

ACADEMIC HONESTY

As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity." Students will exhibit behavior consistent with this commitment to the UF academic community. Academic misconduct appears in a variety of forms (including plagiarism) and may be punishable in a variety of ways, from failing the assignment and/or the entire course to academic probation, suspension or expulsion. On all work submitted for credit by students at the university, the following pledge is either required or implied: "**On my honor, I have neither given nor received unauthorized aid in doing this assignment.**" Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Faculty will not tolerate violations of the Honor Code at the University of Florida and will report incidents to the Student Conduct and Conflict Resolution for consideration of disciplinary action. The [Student Honor Code and Conduct Code \(Regulation 4.040\)](#) specifies a number of behaviors that are in violation of this code, as well as the process for reported allegations and sanctions that may be implemented. If you have questions about what constitutes academic misconduct before handing in an assignment, see your instructor.

APPROPRIATE USE OF ARTIFICIAL INTELLIGENCE (AI) TECHNOLOGY POLICY

The UF Honor Code strictly prohibits [cheating](#). Within our course, *cheating* is the use of any materials or resources prepared by another person or Entity (inclusive of generative AI tools) without the other person or Entity's express consent or without proper attribution to the other person or Entity. Additionally, the use of any materials or resources through any medium, which the instructor has not given express permission to use and that may confer an academic benefit to a student, constitutes *cheating*. In some instances, within this course, the use of AI tools will facilitate student development of skills and knowledge acquisition within the stated learning objectives. However, in other components, the use of any AI enabled tool in this course substantially

compromises the student's ability to achieve the stated learning objectives. Each assignment and assessment will include a statement clarifying acceptable AI use for that respective learning assessment. When students opt to leverage AI tools to augment their submitted products, they must appropriately cite the tool(s) utilized. Further, students are accountable under the scope of the UF Student Honor Code & Conduct Code for the content of all work they submit (including the portions generated in part or whole by an external Entity—inclusive of AI). Thus, students should engage in active editorial and underwriting efforts to ensure the totality of the work submitted reflects their intentions and ethical values.

PLAGIARISM POLICY

Defined as the use and appropriation of another's work without any indication of the source and the representation of such work as the student's own. Any student, who fails to give credit for ideas, expressions or materials taken from another source, including internet sources, projects/papers submitted for another course (either intentional or unintentional), is guilty of plagiarism (*please refer to the DAT Program Plagiarism Policy in the Student Handbook*).

PRIVACY & IN-CLASS RECORDING

Please notify the instructor before class if you plan to record a portion of a class session. University policy allows students to record video or audio of class lectures for only three purposes - (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. Students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or guest lecturer during a class session. Students may not publish information without the permission of the instructor.

To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. The University considers a recording or transcript of a recording published if it's posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under the [Student Honor Code and Conduct Code \(Regulation 4.040\)](#).

EXAM AND ASSIGNMENT MAKE-UP POLICY

A student experiencing an illness should visit the UF Student Health Care Center or their preferred healthcare provider to seek medical advice and obtain documentation. Please notify the instructor via email as soon as practicable regarding planned absences. Please review the University [policies](#) regarding excused and unexcused absences. The instructor will provide accommodations in alignment with university policies to support student success for excused absences. The student is responsible for all academic expectations missed because of an absence. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online [catalog](#).

ACCOMMODATING STUDENTS WITH DISABILITIES

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the Disability Resource Center by visiting their [Get Started page](#). It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

COURSE EVALUATIONS

Students should provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Please review [guidance](#) on how to give feedback in a professional and respectful manner. Students will be notified via email and Canvas announcement when the evaluation period opens. Students may access the evaluation through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via the GatorEvals [website](#). [Summaries](#) of course evaluation results are available.

DEPARTMENT OF APPLIED PHYSIOLOGY & KINESIOLOGY ADMINISTRATORS

The Athletic Training Program supports an inclusive learning environment and promotes diversity of thoughts, perspectives, and experiences. We value critical reasoning, evidence-based arguments, and self-reflection to support the growth of each student. Please refer to the Doctor of Athletic Training Program Policies and Procedures Manual (Canvas) for additional information. For suggestions or concerns related to APK courses or programming, please reach out to any of the following:

- Dr. David Vaillancourt (he/him), APK Department Chair, vcourt@ufl.edu
- Dr. Demetra Christou (she/her), APK Department Vice Chair, ddchristou@hhp.ufl.edu
- Dr. Steve Coombes (he/him), APK Graduate Coordinator, rachaelseidler@ufl.edu
- Dr. Joslyn Ahlgren (she/her), APK Undergraduate Coordinator, jahlgren@ufl.edu

Grading

Students will earn their course grade based on completion of coursework as outlined below.

Item	Percentage
Examinations (2)	50%
Assignments (10)	45%
Participation (6)	5%
Total Grade	100%

EXAMINATIONS (2)

Didactic content examinations (2), administered in Canvas, include approximately 75 – 150 questions with a variety of question formats (e.g., multiple choice, select all that apply, matching and rank order). Examinations evaluate the comprehension and application of information from discussion, text, and other supplemental resources provided in the course. Students may not use resources when completing examinations. The examination is available during the defined examination window for a specified amount of time using Canvas and associated testing support services (if applicable). Please review the [‘Student Help FAQs’](#) on the e-Learning website for assistance with Canvas. Students may not access examinations after submission but will see the grade posted in the course gradebook.

ASSIGNMENTS (10)

Assignments (if collected in hard copy) are due at the onset of class on the due date assigned; for electronic submissions, please submit the assignment prior to the designated deadline as posted in Canvas. Please type all assignments unless otherwise stated in the directions. To earn points for submitted assignments, please submit them by the assigned deadline. For certain assignments, the instructor may accept late submissions. If accepted, the instructor will score the late submission using the appropriate rubric and then assign a late submission reduction (25% reduction if received <48 hours, 50% reduction if received 49 – 72 hours, 75% reduction if received 73 hours – 96 hours, and graded as a 0% if beyond 96 hours from submission deadline). To receive an excused absence for attendance, participation, and/or assignment, please notify me in advance if you have a planned absence, which may delay submission of an assignment. Students are responsible for all materials missed related to an absence. Students with an excused absence have make-up opportunities per university guidelines.

Students will complete the following **Assignments** throughout the semester:

Reflection Video (6): Students will complete a reflection video submission for Guest Speakers, Lab or Special Sessions as indicated in the course schedule. Each reflection video will require two components to receive points (attendance/participation AND submission of the reflection paper). Students should take adequate notes and/or review relevant materials prior to each session to better prepare, engage and find relevance within the discussion. Points awarded for reflection videos will depend on the length of the session/experience and may range from 25 points – 50 points each (e.g. clarity = 5 points, relevance = 5 points, analysis = 5 points, interconnections = 5 points, self-criticism = 5 points, and format = 5 points total score = 30 points). Please refer to Canvas for details submission instructions and expectations for depth and breadth of content shared within the reflection video.

Leadership and Professional Responsibility Assignments (4): Students will complete assignments within the areas of Leadership Styles, Diversity, Mentoring and Role Models, and Communication to foster cognition, integration, and application of learned material. Specific guidelines and instructions, including formatting, submission deadlines, and grading rubrics will be available in Canvas. Assignments will align with learning outcomes for the course and specific content areas outlined within the course schedule.

CRITICAL THINKING AND PARTICIPATION (6)

Discussion, including engagement and inquiry, and assignments within the course provide opportunities for growth and inquiry. Course participation, captured within Canvas as critical thinking questions or comments shared with the instructor, helps with concept assimilation and identification of areas requiring clarity. Failure to come to class "prepared" creates an ineffective environment for valuable exchange of information. To foster accountability with discussions, students will provide at least two questions or comments on dates indicated as "discussion" in the schedule. Students earn participations points by attending class, contributing to class through insightful discussion, and completing the shared questions or comments. Scoring for the critical thinking and participation component uses a 10-point scale rubric posted within Canvas (Excellent = 10 points, Good = 8 points, Reasonable = 6 points, Basic = 4 points, Bare Minimum = 2 points, and Unacceptable = 0 points) and evaluates submissions to capture the student's ability to define, describe, and/or illustrate concepts and skills

gained as part of the learning process. Students may submit their questions or comments prior to the discussion date, but no later than 11:59pm on the day of the discussion. Additional details provided within Canvas.

GRADING SCALE

Assignments (posted within Canvas) include rubrics, expectations for submission, and associated grading criteria. Students can see their progress within the Canvas gradebook. Examinations and quizzes score upon submission; however, adjustments to score may occur after the instructor reviews question performance statistics. Within the Canvas gradebook, percent calculations round up at “.6 or above” and round down at “.5 or below”. For more information regarding Grade Point Averages, Grade Values and academic regulations related to grading, please visit the University [website](#)
