Signature:		Date:
Graduate Coordinator Information		
Graduate Coordinator:		Phone:
Admission Decision: Yes No		Admission Date:
Is admission decision contingent upon completion of Master's degree by August 2018?		Yes No
Signature:		Date:

Checklist:

All items must be included and provided IN THIS ORDER:

- A completed HHP Graduate School Funding Award Nomination Form.
- The applicant's current CV with publications (provide sample), presentations and experiences.
- A personal statement from the applicant (3-page maximum). The personal statement should include previous research and practitioner experiences, what opportunities this award would provide for them, how their work will be aligned with the research agenda of the prospective mentor, and long-term career goals. This statement should be different from the letter of application to the doctoral program and specifically address the points mentioned here.
- A minimum of two recommendation letters by outside references noting research and practitioner experiences (recommendation letters from doctoral program application can be used).
- A nomination letter from the applicant's prospective UF mentor. The nomination letter should provide documentation of the applicant's potential for contribution to the program, to the overall field of study, and to UF by summarizing the applicant's previous research, publications and scholarly activity.
- An individualized training plan written by the prospective mentor detailing the proposed research training of the applicant (2-page maximum). The plan should include each of the following items: (1) A brief description of the current research in which the applicant will be involved; (2) the mentor's plan to develop the applicant's research capabilities; and (3) the relationship of the training plan to the applicant's career goals. While aspects of the training plan will be similar across students (e.g., plan for training in research ethics), the plan should be tailored to the individual student's background and goals.
- Resources and environment (1-page maximum). Ability of the prospective mentor to provide training/mentoring environment and resources to support applicant's training (description of funding sources for students' training plan).
- Effectiveness of advising (1-page maximum). A brief description on the achievements (e.g., job placement and scholarly productivity) of existing and former Ph.D. students including GSFA awardees the mentor has advised.
- The prospective mentor's current biosketch/CV (not to exceed 10 pages) including a list of all doctoral trainees during the last 5 years. For graduated doctoral students supervised by the prospective mentor, provide the name of present employer and position title.

Application Deadline:

Completed applications are due to departments by February 2, 2018.

Nomination Deadline:

Complete nomination packets must be received by the HHP Associate Dean for Academic and Student Affairs *no later than 5:00 pm on Wednesday, February 7, 2018.*

Do NOT staple the nomination packet. The nomination packet should be presented in the sequence noted above.

Questions:

If you have any questions, please contact Dr. Christopher Janelle at cjanelle@hhp.ufl.edu.
