Subject: Thank you

Dear Colleagues,

Provost Glover's note (below) mirrors my pride in each of you, our faculty and our staff. I admire your effective response to the COVID-19 challenge, your steadfast concern for our students, and the upbeat way in which you have tackled this crisis.

You are the heart of this college and I am honored to work with you.

Warm regards,

Mike

Dear Faculty Members,

Just a note to say thank you. The health crisis has been, and will likely continue to be, challenging for all of us. I recognize that the University has asked you to make substantial adjustments to our normal processes. You have responded quickly and creatively to the needs of the moment. Thank you for being an important contributor to these efforts. Without your good work, the University could not meet the challenge.

Best wishes,
Joe Glover
