The typed proposal must be submitted with the completed and signed contract (page 4 of this document). The proposal is to include, in detail, a description of the internship/practicum site, your duties and responsibilities, fit with your degree plan, a timeline and your final project details. This proposal must be approved prior to making commitments (verbal or written) to conduct your practicum or internship at an agency.

### INTRODUCTION

This opportunity is designed to provide *practical experience for Sport Management majors*. Students will maintain a part-time or full-time workload in a setting appropriate to their specialization such as athletic programs, sports commissions, and sports agencies where significant learning possibilities exist. Through a practical experience such as this, the efficient application of knowledge, idea, and skills in a realistic work setting can begin to occur. With this, both the student and the site should benefit immeasurably. All experiences must directly and explicitly involve activities involving sport industry experiences relevant to the academic content covered in the Sport Management curriculum.

### EXPERIENCE OBJECTIVES

The major objectives for the Sport Management experience are to enable the student to:

1. Begin applying the knowledge and skills attained in the course setting to specific practical sport management issues in the workplace, and
2. Contribute significantly to the activities, events, and projects of the site.

### CREDITS

Students can enroll for 3-9 (max 9) credit hours of SPM 6947 - Graduate Internship or 1-3 (max 6) credit hours of SPM 6948 - Advanced Practicum per semester. The evaluations are to be submitted to your faculty advisor by the deadline. The mid-term and final evaluation forms can be found on the HHP website. In addition, students will be required to submit a midterm and final reflection of your experiences as they relate to your proposed learning objectives and goals (item 5 in the original proposal) and submit a midterm and final time log by the deadline.

**Final Project:** Students will also be required to submit a final project that is to be discussed with both their faculty advisor and site supervisor to determine documents or projects that might be most appropriate for the position in which the student is gaining experience (item 6 in the original proposal).
