

Q1.
APPLIED PHYSIOLOGY AND KINESIOLOGY (APK)
INTERNSHIP SITE APPROVAL FORM

Q2.
The **Department of Applied Physiology and Kinesiology (APK)** at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all undergraduates complete a 12-credit internship experience and graduate students complete a 5-credit internship experience during their final semester. The experience requires a minimum of 520 clock hours for undergraduates and 600 clock hours for graduate students, or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters or 40-45 hours a week for 13 weeks, for the Summer semester. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest within their specialization. The specializations within the department are:

Exercise Physiology (Undergraduate): Prepares students interested in pursuing a career in one of the health professions or graduate study in exercise science. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. For intern hours in this specialization, students are expected to complete hours in a biomedical research setting related to exercise and/or sport.

Fitness/Wellness (Undergraduate): prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agencies. The curriculum emphasizes practical aspects of fitness and wellness.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students will be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the [APK Internship Policies and Procedures](#) Document to gain a better understanding of the expectations of students and site supervisors during the experience.

Q5. Organization Name

Central Florida Health (LRMC Wellness Center)

Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval

700 N. Palmetto St., Leesburg, FL 34748

Q7. Name of Individual Who Will Receive Applications From Students

Sandra Guirguis

Q8. Email Address of Individual Who Will Receive Applications From Students

sguirguis@centflhealth.org

Q9. Phone Number of Individual Who Will Receive Applications From Students

(352) 323-4182

Q10. URL of Website For Organization

<https://www.centralfloridahealth.org/>

Q11. Name of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

John Bowers

Q12. Email Address of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

Q13. Phone number of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

352-323-5643

Q14. What Semester(s) Is Your Organization Available To Accept Interns? (select all that apply)

- Fall (August - December)
- Spring (January - April)
- Summer (May - August)

Q15. APK Internship Policy requires that a site supervisor hold one degree higher than the student intern. This means that site supervisors of undergraduate interns must hold at least a bachelor's degree and those of graduate interns must hold at least a master's degree. Based on this policy, for which category of students is your organization willing to accept applications? Check all that apply

- Undergraduate Students
- Graduate Students

Q16. How many interns is your organization willing and able to support per semester?

2

Q17. Describe the normal working hours anticipated for an intern at your organization. Please indicate likelihood and circumstances surrounding any evening or weekend time commitments.

Interns will work a variety of shifts to give them exposure to the entire job. They will learn what an opener and a closer has to do to get ready for their day as well as what goes on throughout the day. The intern will have an opportunity to attend/participate in classes and to learn how to teach them. Our focus is to prepare the intern for a career in exercise science. The more skills they can acquire, the better their job prospects once they graduate.

Q18. Does your organization offer non-paid or paid internships?

Non-paid

Paid (amount)

Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)

free use of the Wellness Center during their internship

Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)

stethoscope, attire that meets our dress code

Q23. List required skills or previous experience necessary for interning with your organization

enrollment in an exercise science program (undergraduate or graduate), desire to learn more about the field of study, BLS certification

Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)

BLS certification (CPR)

Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:

*supervise exercising clients (cardio and weight rooms) *take blood pressures before, during, and/or after workouts *attend and learn to teach exercise classes *Give tours of the facility to potential members *Help with filing and answering phones *pretty much everything an exercise specialist does on a daily basis.

Q26. Please describe a typical day for the intern:

Depending on the day of the week, there are different classes being taught. On a normal day, the intern will be watching the exercise floor, observing clients to make sure they are using proper form and techniques in all aspects of their workouts. The intern may be observing a class as well or a weight orientation given by one of the staff members. We typically pair the intern up with a staff members so they can shadow them. This gives them the chance to ask questions any time.

Q28. Interns must be evaluated on at least 6 of the following 9 Student Learning Outcomes (SLO's). Please check each SLO that applies to the duties/responsibilities provided to interns at your organization.
