

Q1. APPLIED PHYSIOLOGY AND KINESIOLOGY (APK) INTERNSHIP SITE APPROVAL FORM

Q2.

The **Department of Applied Physiology and Kinesiology** (APK) at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete a 12-credit internship experience in their final semester of study. The experience requires a minimum of 520 clock hours or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters, or 40-45 hours a week for 13 weeks during the Summer semester. Graduate students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergradaute and graduate programs is below:

APK Undergraduate Program: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agency, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the <u>APK Internship Policies and Procedures</u> Document to gain a better understanding of the expectations of students and site supervisors during the experience.

Intern Abroad HQ

Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval

99 Devon Street West, New Plymouth 4310, New Zealand

Q10. URL of Website For Organization

https://www.internhq.com/

Q7. Name of Individual Who Will Receive Applications From Students

Sarah Butler

Q8. Email Address of Individual Who Will Receive Applications From Students

sarah.butler@volunteerhq.org

Q9. Phone Number of Individual Who Will Receive Applications From Students

855-714-7455

Q34.

Will the person receiving internship applications from students be the same person supervising the student and completing the student evaluations during the internship?

⊖ Yes

🔵 No

Q11. Name of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

Q12. Email Address of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

sarah.butler@volunteerhq.org

Q13. Phone number of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

3557147455			

Q14. What Semester(s) Is Your Organization Available To Accept Interns? (select all that apply)

- Fall (August December)
- Spring (January April)
- Summer (May August)

Q15. APK Internship Policy requires that a site supervisor hold one degree higher than the student intern. This means that site supervisors of undergraduate interns must hold at least a bachelor's degree and those of graduate interns must hold at least a master's degree. Based on this policy, for which category of students is your organization willing to accept applications? Check all that apply

✓ Undergraduate Students

✓ Graduate Students

Q16. How many interns is your organization willing and able to support per semester?

No limit	

Q17. Describe the normal working hours anticipated for an intern at your organization. Please indicate likelihood and circumstances surrounding any evening or weekend time commitments.

Monday to Friday, 9am - 5pm

Q18. Does your organization offer non-paid or paid internships?

\bigcirc	Non-paid	
\bigcirc	Paid (amount)	

Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)

Accommodation Meals 24/7 in-country support Airport pick-up Program orientation Dedicated support before, during, and after your internship In-country guidance for social and tourist activities Sourcing and securing your internship placement Personalization of your internship plan Coaching from your supervisor Documented portfolio of your experiential learnings International reference letter Certificate of Internship Completion

Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)

Visa (if required) Flights Travel insurance (mandatory) Vaccinations Criminal background check Transfer back to the airport at the end of your internship program Optional extras, such as language lessons Souvenirs and leisure activities during your free time Personal spending money to cover basic expenses such as drinks, snacks, laundry, public transportation, and any meals not included in your Program Fee

Q23. List required skills or previous experience necessary for interning with your organization

Suitable for participants who are pursuing higher education in a relevant field. For example, an undergraduate degree (or currently enrolled) in Public Health, Health Sciences, etc.

Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)

N/A

Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:

As an intern in the public health sector, you'll assist public health advisers in hospitals and clinics, or those working with school education groups. You'll shadow and observe qualified medical professionals in consultations with patients, and gain experience promoting healthy lifestyles to community groups. These classes can include general health practices, as well as specific fields such as exercise, mental health, nutrition, sexual health, COVID-19 prevention, and more.

Q26. Please describe a typical day for the intern:

Public Health internships encapsulate a broad scope of opportunities, and internships are customized so that you'll be contributing to a placement that focuses on an area well suited to your interests and education. Interns wanting to focus their placement in a specific field should include details in your application. Requests are accommodated wherever possible, though are subject to availability.

Q28. All Interns (undergraduate and graduate) MUST be evaluated on **at least** 6 of the following 9 Student Learning Outcomes (SLO's), though evaluation of all 9 is preferred. Please check each SLO that applies to the duties/responsibilities provided to interns at your organization.

Integrate principles and methods of math, social sciences, and/or arts and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments.	Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.	Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.
Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).	Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.
Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.	Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.
Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.	

Q33. Name of APK student that requested the site approval form from you (if applicable)

Q29. Would you like to be added to the Department's list of approved sites for future interns?

🔘 Yes

⊖ No

Q32. Have you reviewed the APK Internship Policies and Procedures Manual?

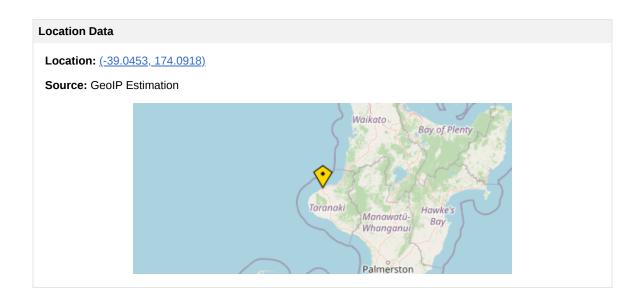

O No

Q30. Signature of Individual Who Will Be Receiving Internship Applications

Q31. Signature of Individual Who Will Be Supervising And Evaluating Students During The Internship

Approved: 6.2.22
