

Q1.
APPLIED PHYSIOLOGY AND KINESIOLOGY (APK)
INTERNSHIP SITE APPROVAL FORM

Q2.

The **Department of Applied Physiology and Kinesiology** (APK) at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete a 12-credit internship experience in their final semester of study. The experience requires a minimum of 520 clock hours or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters, or 40-45 hours a week for 13 weeks during the Summer semester. **Graduate** students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergradaute and graduate programs is below:

APK Undergraduate Program: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agency, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the <u>APK Internship Policies and Procedures</u> Document to gain a better understanding of the expectations of students and site supervisors during the experience. Note that clicking the link to the Policies

and Procedures manual will take you away from this survey and cause any information input into the survey to be lost.			
Q5. Organization Name			
The Athleticus LLC			
Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval			
917 49th Street South Gulfport FL 33707			
Q10. URL of Website For Organization			
www.theathleticus.com			
Q7. Name of Individual Who Will Receive Applications From Students			
Alvaro Betancourt			
Q8. Email Address of Individual Who Will Receive Applications From Students			
team@theathleticus.com			
Q9. Phone Number of Individual Who Will Receive Applications From Students			
727-265-2496			
Q34. Will the person receiving internship applications from students be the same person supervising the student and completing the student evaluations during the internship?			

YesNo

	rograming	

Q26. Please describe a typical day for the intern:	
Train 2-3 clients, then spend some time crafting social media posts an	d writing a blog post, break, train 1 or 2 more personal training clients
Q28. All Interns (undergraduate and graduate) MUST b Learning Outcomes (SLO's), though evaluation of all 9 the duties/responsibilities provided to interns at your org	is preferred. Please check each SLO that applies to
Integrate principles and methods of math, social sciences, and/or arts and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments.	Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.	Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.
Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).	Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.
Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.	Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.
Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.	
Q33. Name of APK student that requested the site appr	roval form from you (if applicable)
Q29. Would you like to be added to the Department's lis	st of approved sites for future interns?
YesNo	
Q32.
