

Q1.
APPLIED PHYSIOLOGY AND KINESIOLOGY (APK)
INTERNSHIP SITE APPROVAL FORM

Q2.

The **Department of Applied Physiology and Kinesiology** (APK) at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete a 12-credit internship experience in their final semester of study. The experience requires a minimum of 520 clock hours or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters, or 40-45 hours a week for 13 weeks during the Summer semester. **Graduate** students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergradaute and graduate programs is below:

**APK Undergraduate Program**: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agency, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

**Human Performance (Graduate)**: The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the <u>APK Internship Policies and Procedures</u> Document to gain a better understanding of the expectations of students and site supervisors during the experience. Note that clicking the link to the Policies

and Procedures manual will take you away from this survey and cause any information input into the survey to be lost.
Q5. Organization Name
Norman Fixel Institute for Neurological Diseases
Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval
Norman Fixel Institute for Neurological Diseases UF Health Shands Neuromedicine Tower
Q10. URL of Website For Organization
https://fixel.ufhealth.org/
Q7. Name of Individual Who Will Receive Applications From Students
Joshua Wong
Q8. Email Address of Individual Who Will Receive Applications From Students
joshua.wong@neurology.ufl.edu
Q9. Phone Number of Individual Who Will Receive Applications From Students
352-294-5400
Q34. Will the person receiving internship applications from students be the same person supervising the student and completing the student evaluations during the internship?
Yes

○ No

<i>Q11.</i> Name of Individual Who Will Supervison Evaluations	e Students Directly During Internship and Complete Student
This question was not displayed to the respondent.	
<i>Q12.</i> Email Address of Individual Who Will S Student Evaluations	Supervise Students Directly During Internship and Complete
This question was not displayed to the respondent.	
Q13. Phone number of Individual Who Will S Student Evaluations	Supervise Students Directly During Internship and Complete
This question was not displayed to the respondent.	
Q14. What Semester(s) Is Your Organizatio	on Available To Accept Interns? (select all that apply)
Fall (August - December)	
Spring (January - April)	
✓ Summer (May - August)	
This means that site supervisors of undergra	site supervisor hold one degree higher than the student intern. aduate interns must hold at least a bachelor's degree and those of er's degree. Based on this policy, for which category of students is ons? Check all that apply
✓ Undergraduate Students	Graduate Students
Q16. How many interns is your organization	າ willing and able to support per semester?
1	
Q17. Describe the normal working hours an likelihood and circumstances surrounding a	nticipated for an intern at your organization. Please indicate any evening or weekend time commitments.
Monday through Friday 8am to 5pm. Time will either spin the hospital/clinical setting collecting data from patien	pent in the Wong lab conducting research on electrophysiology of deep brain stimulator patients onts

<ul><li>Non-paid</li></ul>
O Paid (amount)
Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement,
etc.)
NA
Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)
Q
Badge/hospital fob key Parking pass for hospital
Budge/Hospital too key Lathing pass for hospital
Q23. List required skills or previous experience necessary for interning with your organization
Introductory level understanding of neuro anatomy (OPTIONAL) Python experience (OPTIONAL) Statistics experience (OPTIONAL) Data science
experience
O24 List any special gradentials or decuments required to intern with your organization (i.e. CDD/First Aid
Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation,
background check)
HIPAA training IRB training
Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:
Data collection during deep brain stimulator surgery Assisting with surgical team during surgery Analysis of electrophysiology data Weekly presentation
of project updates

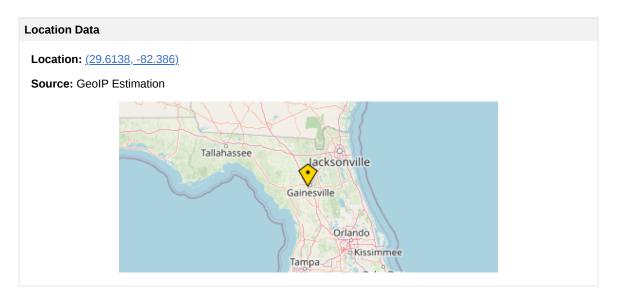

equipment preparations. Cases typically start at 8am and end around 5 research days, the intern will report to the Fixel Institute - Wong lab and	redicine tower with the Neurology DBS team and assist the team with pre-surgical form. The intern will work to collect data in real time alongside the clinical team. On d work with the electrophysiology team to process the collected data and conduct am. The intern will be given a work space within the lab environment alongside	
Q28. All Interns (undergraduate and graduate) MUST be Learning Outcomes (SLO's), though evaluation of all 9 is the duties/responsibilities provided to interns at your org	s preferred. Please check each SLO that applies to	
Integrate principles and methods of math, social sciences, and/or arts and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments.	Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.	
Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.	Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.	
Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).	Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.	
Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.	Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.	
ldentify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.		
Q33. Name of APK student that requested the site appro	oval form from you (if applicable)	
Q29. Would you like to be added to the Department's list of approved sites for future interns?		
<ul><li>Yes</li><li>No</li></ul>		
Q32. Have you reviewed the APK Internship Policies and take you away from this survey and any information inpurecommend holding the ctrl button on your keyboard where	ut into the survey will be lost if you navigate back. We	
<ul><li>Yes</li><li>No</li></ul>		

Q26. Please describe a typical day for the intern:

Q31. Signature of Individual Who Will Be Supervising And Evaluating Students During The Internship

This question was not displayed to the respondent.

Approved: 10.31.23
