

Location: Tampa FL Date: 7/29/16  
City State

Organization: University of South Florida Athletics

\*Contact Person(s): Steve Walz  
*\*Must have at least a Bachelor's degree in a related field and a minimum of 2 years' experience within the discipline.*

Address: 4202 E. Fowler Ave, ATH100 Tampa FL 33620  
Street/PO Box City State/Zip

Phone: 813-974-3506 Fax: 813-974-8541

Email: walz@usf.edu Website:

What semesters is your organization available to accept interns?  
 Fall (August-December)  Spring (January-April)  Summer (May-August)

Please check the specializations that best pertain to the internship experience offered:

Exercise Physiology  Fitness/Wellness

How many interns do you typically accept per semester? 4-6

Interns must complete a minimum of 35-40 hours per week (520 hours total). List the normal working hours for your organization. Please indicate any evening or weekend time commitments:

Is office space available to interns?  Yes  No \_\_\_\_\_  
Comments

Is a computer/scanner available to interns?  Yes  No \_\_\_\_\_  
Comments

Does your organization offer paid or non-paid internships?  Non-paid  Paid (amount) \_\_\_\_\_

List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)  
None

List required purchases for interning with your site (e.g. parking pass, uniform, back-ground check, etc.):  
ID card (\$15)

List required skills or previous experience necessary for interning with your organization:

Background in health and wellness

Special Requirements (i.e. special application, proof of health insurance, immunizations, etc.)

*Please note: All interns are required to purchase professional liability insurance coverage for \$1,000,000*

AED/CPR certified

Blood Borne pathogen trained

Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:

- Assist in Athletic Training clinic with patient care
- Assist in set up for practice/event coverage
- Assist with practice/event medical coverage
- Assist with pre-participation physical examinations
- Other duties as assigned

Please describe a typical day for the intern:

- Clinic opening procedures
- Treatment and/or rehabilitation procedure assistance
- Hydration set up
- Insurance/Medical paperwork assistance

Interns must be evaluated on at least 6 of the following Student Learning Outcomes (SLO's). Please check each SLO that applies to the duties/responsibilities provided to interns at your organization.

APK Student Learning Outcomes (SLOs)	Applied Examples <i>(These examples used to describe each SLO are not exclusive; they are simply intended to provide clarity to the individual SLOs)</i>
<input type="checkbox"/> Integrate principles and methods of math, social sciences, and arts and humanities to applied physiology and kinesiology, wellness, and/or fitness environments.	<ul style="list-style-type: none"> <li>• Intern can perform body composition calculations.</li> <li>• Intern can identify socioeconomic impacts on health and fitness behaviors.</li> <li>• Intern can calculate target and max heart rates in order to prescribe aerobic exercise.</li> </ul>
<input checked="" type="checkbox"/> Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.	<ul style="list-style-type: none"> <li>• Intern can identify muscles used in specific exercises and name other exercises that use those muscles.</li> <li>• Intern can name specific structures damaged by pathologies like diabetes.</li> </ul>
<input checked="" type="checkbox"/> Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).	<ul style="list-style-type: none"> <li>• Intern can explain the baroreflex.</li> <li>• Intern can explain why skeletal muscle cells atrophy when immobilized.</li> <li>• Intern can describe the impact of respiration on blood pH.</li> </ul>
<input checked="" type="checkbox"/> Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.	<ul style="list-style-type: none"> <li>• Intern can explain how exercise helps depression.</li> <li>• Intern knows where to locate information related to psychological health impacts of various activities.</li> <li>• Intern can identify and properly refer individuals with eating disorders.</li> </ul>
<input checked="" type="checkbox"/> Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.	<ul style="list-style-type: none"> <li>• Intern can explain why resting HR and BP are reduced following endurance training.</li> <li>• Intern can identify immediate and long-term benefits of resistance training.</li> </ul>
<input type="checkbox"/> Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.	<ul style="list-style-type: none"> <li>• Intern can select a safe fitness test for a cardiac patient.</li> <li>• Intern can perform skinfold testing and use that data to prescribe appropriate amounts of exercise.</li> </ul>
<input checked="" type="checkbox"/> Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.	<ul style="list-style-type: none"> <li>• Intern can describe which populations might be prone to ankle sprains.</li> <li>• Intern can identify medications which might lead to an impaired ability to perform aerobic exercise.</li> <li>• Intern can prescribe exercise to suit the goals of clients based on fitness assessments.</li> </ul>
<input type="checkbox"/> Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.	<ul style="list-style-type: none"> <li>• Intern can perform a submaximal VO<sub>2</sub> test and use the collected data to classify the subject's level of fitness.</li> <li>• Intern can perform a laboratory experiment and compare their results to other similar studies.</li> </ul>
<input checked="" type="checkbox"/> Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.	<ul style="list-style-type: none"> <li>• Intern can explain to a patient the importance of hydration during exercise.</li> <li>• Intern can generate professional emails to ask scientific or medical questions.</li> <li>• Intern can generate an abstract to present research at a scientific or medical conference.</li> </ul>

Would you like to be added to the Department's list of approved sites for future interns?  Yes  No

Name of student requesting completion of the site approval form (if applicable): \_\_\_\_\_

I have reviewed the APK Undergraduate Internship Policies and Procedures Manual: \_\_\_\_\_

Date

Site Signature:  Date: 8/14/16

Department Approval:  Date: 8/31/16
