

Q1.
APPLIED PHYSIOLOGY AND KINESIOLOGY (APK)
INTERNSHIP SITE APPROVAL FORM

Q2.

The **Department of Applied Physiology and Kinesiology** (APK) at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete a 12-credit internship experience in their final semester of study. The experience requires a minimum of 520 clock hours or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters, or 40-45 hours a week for 13 weeks during the Summer semester. **Graduate** students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergradaute and graduate programs is below:

APK Undergraduate Program: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agency, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the <u>APK Internship Policies and Procedures</u> Document to gain a better understanding of the expectations of students and site supervisors during the experience.

Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval
Qu. Organization Education(a) motide reduceded of rin Educations to be motided rio rate of ring reproved
2512 NE 1st Blvd #400, Gainesville, FL 32609
Q10. URL of Website For Organization
Quer d'Au de Proposite à de Grégat municipal de la company
womensliftlab.com
Q7. Name of Individual Who Will Receive Applications From Students
Dr. Mike Bertulfo
Q8. Email Address of Individual Who Will Receive Applications From Students
mike@HealthEducationWorks.com
Q9. Phone Number of Individual Who Will Receive Applications From Students
813-428-2043
Q34. Will the person receiving internship applications from students be the same person supervising the
student and completing the student evaluations during the internship?
Yes
○ No

Q5. Organization Name

Q18. Does your organization offer non-paid or paid internships?	
Operating hours are M-Th 6:00AM-6:30PM. Hours are flexible. However, interns must be available for meetings and o	deadlines during the work week.
Q17. Describe the normal working hours anticipated for an intern at your organization. Plealikelihood and circumstances surrounding any evening or weekend time commitments.	
2	
Q16. How many interns is your organization willing and able to support per semester?	
✓ Undergraduate Students ✓ Graduate Students	
Q15. APK Internship Policy requires that a site supervisor hold one degree higher than the This means that site supervisors of undergraduate interns must hold at least a bachelor's or graduate interns must hold at least a master's degree. Based on this policy, for which category organization willing to accept applications? Check all that apply	legree and those of
Summer (May - August)	
✓ Spring (January - April)	
✓ Fall (August - December)	
Q14. What Semester(s) Is Your Organization Available To Accept Interns? (select all that a	upply)
This question was not displayed to the respondent.	
Q13. Phone number of Individual Who Will Supervise Students Directly During Internship a Student Evaluations	and Complete
This question was not displayed to the respondent.	
Q12. Email Address of Individual Who Will Supervise Students Directly During Internship a Student Evaluations	and Complete
This question was not displayed to the respondent.	

O Non-paid

Paid (amount) \$200

Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)
Complimentary gym membership
Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)
N/A
Q23. List required skills or previous experience necessary for interning with your organization
Helpful experience would include: Physical Therapy or Chiropractic experience/interest Personal Training or Athletic Training experience/interest Developing health and wellness materials Writing for and/or managing a blog Social media savviness Social marketing knowledge
Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)
Personal training certification is helpful but not required.
Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:
Depending on what the intern would like to focus or specialize in, they would experience: First hand personal and athletic training Learn how to run the day to day aspects of the business Blogging on health topics (i.e. T2 diabetes, hyperlipidemia) Curate health related content for social media Developin a marketing plan Performing individual training assessments and evaluations

Q26. Please describe a typical day for the intern:

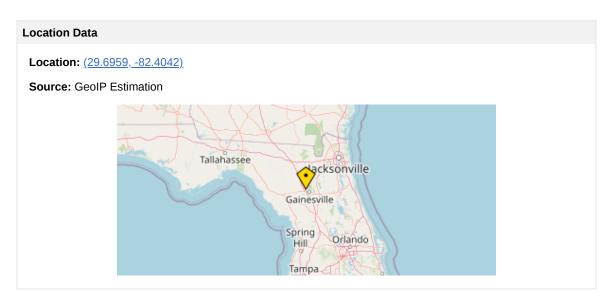

between sessions would be dedicated to writing on health topics and pwith other individuals and organizations in the health and wellness field	oosting on the main website and social media. They would also seek to collaborate d (i.e. clinics, studios, therapists). They may attend community events and o run the training facility from managing clients, communicating with vendors, and
Q28. All Interns (undergraduate and graduate) MUST b Learning Outcomes (SLO's), though evaluation of all 9 the duties/responsibilities provided to interns at your org	is preferred. Please check each SLO that applies to
Integrate principles and methods of math, social sciences, and/or arts and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments.	Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.	Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.
Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).	Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.
Investigate and explain the effects of physical activity on ✓ psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.	Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.
Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.	
Q33. Name of APK student that requested the site appr	roval form from you (if applicable)
Q29. Would you like to be added to the Department's lis	st of approved sites for future interns?
YesNo	
Q32. Have you reviewed the APK Internship Policies as	nd Procedures Manual?
YesNo	
Q30. Signature of Individual Who Will Be Receiving Inte	ernship Applications

A typical day might start with onsite training of members (if certified), which includes assessments and implementation of a specific strategy. Time

Q31. Signature of Individual Who Will Be Supervising And Evaluating Students During The Internship

This question was not displayed to the respondent.

Approved: 7.11.22
