Which semester(s) is your agency available to accept interns?

Fall (August – December) Spring (January – April) Summer (May – August)

Typical intern working hours (Please also indicate any evening or weekend time commitments):

Typical hours range from 7:30am - 3:30pm or 8:00am - 4:00pm, Monday - Friday.

Is office space available to interns? Yes No
Comments

Is a computer available to interns? Yes No
Comments *A laptop might be needed*

Does your agency offer paid or non-paid internships? Non-paid Paid (amount): _____

List other benefits your agency offers interns (i.e. housing, health insurance, travel reimbursement, etc.)

N/A

List required purchases for interning with your agency (i.e., parking pass, uniform, etc.)

Parking is provided at clinic locations where parking is not controlled by the University of Florida. There are no required purchases.

List the required skills or previous experiences necessary for interning with your agency.

Expected experience/skills: holding leadership roles, completing coursework with a minimum 3.2 GPA, demonstrating clear communication and follow-up, volunteer experience in community settings, clear desire to help others, articulation of future professional goals, computer knowledge

Special Requirements (i.e., special application, proof of health insurance, immunization records, etc.)

Complete volunteer application with College of Medicine that will include proof of immunization, health exam and proof of health insurance. Successful completion of IRB-01 training courses through UF.

Provide a comprehensive list of health education internship duties, which will be assigned to your HEB senior intern. Please indicate with **NCHEC Responsibility(ies)** that align with each duty.

Interns will be able to participate in a variety of patient and community outreach activities aimed at improving health outcomes and health communication. Each project will be unique in the specific output, but most projects will focus on quality improvement within the hospital or outpatient setting. With numerous sub-specialty clinics housed within Pediatrics, interns may have an opportunity to be matched within a specific area of interest. A few of our specialty clinics include the following: Endocrine, Obesity, Adolescent, Inflammatory Bowl Disease, Behavior, Breastfeeding, Asthma, Allergy, Nutrition, etc.

Each intern is expected to be creative and self-motivated. Project undertaken in General Pediatrics will address responsibility areas I, II, III, IV, VI and VII. Most of the projects will include a formal research component or evaluation to measure the effectiveness of the quality improvement or intervention. Every intern will have the opportunity to participate in a research

List any important information about your agency.

In the Division of General Academic Pediatrics at the University of Florida we foster the well-being of infants, children, adolescents and families. Our mission is accomplished through the provision of: 1) Teaching evidence-based clinical pediatrics to prepare future community and academic pediatricians, 2) research and scholarship to expand and enhance the science and knowledge of general pediatricians, 3) deliver high quality, accessible, safe, reliable and efficient health services, and 4) child advocacy by serving low income, disadvantaged, at-risk and children with special health care needs.
