

Q1.  
APPLIED PHYSIOLOGY AND KINESIOLOGY (APK)  
INTERNSHIP SITE APPROVAL FORM

Q2.  
The **Department of Applied Physiology and Kinesiology (APK)** at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete a 12-credit internship experience in their final semester of study. The experience requires a minimum of 520 clock hours or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters, or 40-45 hours a week for 13 weeks during the Summer semester. **Graduate** students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergraduate and graduate programs is below:

**APK Undergraduate Program:** Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agencies, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

**Human Performance (Graduate):** The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the [APK Internship Policies and Procedures](#) Document to gain a better understanding of the expectations of students and site supervisors during the experience.

Q5. Organization Name

Tampa Bay Plastic Surgery Inc.

Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval

120 South Fremont Avenue, Tampa, FL 33606

Q10. URL of Website For Organization

www.davidhalpernmd.com

Q7. Name of Individual Who Will Receive Applications From Students

David Halpern MD

Q8. Email Address of Individual Who Will Receive Applications From Students

d.halpern@att.net

Q9. Phone Number of Individual Who Will Receive Applications From Students

8138715000

Q11. Name of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

David Halpern MD

Q12. Email Address of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

Q13. Phone number of Individual Who Will Supervise Students Directly During Internship and Complete Evaluations

8138715000

Q14. What Semester(s) Is Your Organization Available To Accept Interns? (select all that apply)

Fall (August - December)

Spring (January - April)

Summer (May - August)

Q15. APK Internship Policy requires that a site supervisor hold one degree higher than the student intern. This means that site supervisors of undergraduate interns must hold at least a bachelor's degree and those of graduate interns must hold at least a master's degree. Based on this policy, for which category of students is your organization willing to accept applications? Check all that apply

Undergraduate Students

Graduate Students

Q16. How many interns is your organization willing and able to support per semester?

1

Q17. Describe the normal working hours anticipated for an intern at your organization. Please indicate likelihood and circumstances surrounding any evening or weekend time commitments.

Monday/Wed 8 am to 4:30 Tuesday/Thursday 7 am till 5 pm Fridays 8 am to 1 pm occasional late night or weekend call responsibilities

Q18. Does your organization offer non-paid or paid internships?

Non-paid

Paid (amount)

Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)

all equipment, computers, software programs, printing

Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)

none

Q23. List required skills or previous experience necessary for interning with your organization

none

Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)

HIPPA guidelines will be reviewed on first day. OSHA as well. intern will not be handling blood/needles. will be taught about sterile technique and shown how to scrub/glove and gown.

Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:

all administrative duties of a medical office including answering phones, scheduling pts, etc learn a HIPAA compliant EMR system with full data entry. pt photography and data entry into Touch MD assist in patient exams, pre/post op care, teach post op therapy, apply/fit pts for splints, order Occupational therapy and mark progress of recovery in Hand Surgery patients. Shadowing all clinical activities including outpatient surgery in surgery ctr completion of a research project which may be submitted for publication

Q26. Please describe a typical day for the intern:

office days: data entry, receptionist duties, organizing patient photos, following MD during patient visits, application of splints, applying PROM/AROM protocols post hand surgery. Removal of dressings/application of dressings. basic and advanced wound care, lasers/RF device management Operative days: observation of all outpatient surgeries in surgery center. unfortunately no hospital care allowed due to covid

Q28. All Interns (undergraduate and graduate) MUST be evaluated on **at least** 6 of the following 9 Student Learning Outcomes (SLO's), though evaluation of all 9 is preferred. Please check each SLO that applies to the duties/responsibilities provided to interns at your organization.
