

Q1.
APPLIED PHYSIOLOGY AND KINESIOLOGY (APK)
INTERNSHIP SITE APPROVAL FORM

Q2.
The **Department of Applied Physiology and Kinesiology (APK)** at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete a 12-credit internship experience in their final semester of study. The experience requires a minimum of 520 clock hours or 35-40 hours a week for 15 weeks, for the Fall and Spring semesters, or 40-45 hours a week for 13 weeks during the Summer semester. **Graduate** students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergraduate and graduate programs is below:

APK Undergraduate Program: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agency, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of the health care team that administers, assesses, and develops programs for clinical populations.

Please review the [APK Internship Policies and Procedures](#) Document to gain a better understanding of the expectations of students and site supervisors during the experience. Note that clicking the link to the Policies

and Procedures manual will take you away from this survey and cause any information input into the survey to be lost.

Q5. Organization Name

United States Marine Corps

Q6. Organization Location(s) - Include Addresses Of All Locations To Be Included As Part Of This Approval

Officer Candidates School 2189N Elrod Avenue Quantico, VA 22134-5033

Q10. URL of Website For Organization

<https://www.trngcmd.marines.mil/Units/Officer-Candidates-School/>

Q7. Name of Individual Who Will Receive Applications From Students

Wesley Williams

Q8. Email Address of Individual Who Will Receive Applications From Students

wesley.williams@marines.usmc.mil

Q9. Phone Number of Individual Who Will Receive Applications From Students

540-656-9917

Q34.

Will the person receiving internship applications from students be the same person supervising the student and completing the student evaluations during the internship?

Yes

No

Q11. Name of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

This question was not displayed to the respondent.

Q12. Email Address of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

This question was not displayed to the respondent.

Q13. Phone number of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

This question was not displayed to the respondent.

Q14. What Semester(s) Is Your Organization Available To Accept Interns? (select all that apply)

- Fall (August - December)
- Spring (January - April)
- Summer (May - August)

Q15. APK Internship Policy requires that a site supervisor hold one degree higher than the student intern. This means that site supervisors of undergraduate interns must hold at least a bachelor's degree and those of graduate interns must hold at least a master's degree. Based on this policy, for which category of students is your organization willing to accept applications? Check all that apply

- Undergraduate Students
- Graduate Students

Q16. How many interns is your organization willing and able to support per semester?

Unlimited, based on eligibility.

Q17. Describe the normal working hours anticipated for an intern at your organization. Please indicate likelihood and circumstances surrounding any evening or weekend time commitments.

Normal working hours are from 5:30 am - 8:00 pm. The interns will be working during the weekends for the first 3-4 weeks and then they will be off on weekends.

Q18. Does your organization offer non-paid or paid internships?

Non-paid

Paid (amount)

Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)

Travel is paid, health insurance is provided, and we also provide the option for job security upon completion of the internship.

Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)

\$450, for uniform item purchases.

Q23. List required skills or previous experience necessary for interning with your organization

All applicants must possess a high level of physical fitness, leadership potential, and academic potential. It helps to have a background in athletics and the understanding of how the human body functions during endurance based events.

Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)

You must undergo a background check, conduct pre-internship orientation on a weekly basis, and complete a full application process.

Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:

- Physical Training - Evaluation of Leadership Potential - Stress Reaction Events - Peer Evaluations - Multiple Comprehensive Exams

Q26. Please describe a typical day for the intern:

Each intern will wake up early for physical training and then evaluate whether that training was useful, or beneficial to improving aerobic/anaerobic conditioning. All interns' possess different levels of fitness, so you will be required to provide corrective feedback and plans to your peers. Throughout the day you will study different materials and receive classes on nutrition, planning physical training evolutions for service members, and then you will be tested on this information. Every week you will undergo one endurance event and be provided feedback on your performance as well as the data collected from your peers.

Q28. All Interns (undergraduate and graduate) MUST be evaluated on **at least** 6 of the following 9 Student Learning Outcomes (SLO's), though evaluation of all 9 is preferred. Please check each SLO that applies to the duties/responsibilities provided to interns at your organization.

Integrate principles and methods of math, social sciences, and/or arts and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments.

Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity.

Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).

Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.

Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity.

Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.

Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking.

Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context.

Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects.

Q33. Name of APK student that requested the site approval form from you (if applicable)

Q29. Would you like to be added to the Department's list of approved sites for future interns?

Yes

No

Q32. Have you reviewed the APK Internship [Policies and Procedures Manual](#)? Note that clicking the link will take you away from this survey and any information input into the survey will be lost if you navigate back. We recommend holding the ctrl button on your keyboard when clicking the link to open it in a new browser tab.

Yes

No

Q30. Signature of Individual Who Will Be Receiving Internship Applications

✕ Wesley clear

Q31. Signature of Individual Who Will Be Supervising And Evaluating Students During The Internship

This question was not displayed to the respondent.
