

Q1.

APPLIED PHYSIOLOGY AND KINESIOLOGY (APK)
INTERNSHIP SITE APPROVAL FORM

Q2.

The **Department of Applied Physiology and Kinesiology (APK)** at the University of Florida would like to thank you in advance for taking the time to complete the approval process and your willingness to provide valuable internship opportunities to our students. The Department of APK requires that all **undergraduates** complete 12-credits of internship experience once becoming eligible. Undergraduate students must earn a minimum of 520 clock hours in the process of completing the 12-credits of the internship course. However, undergraduate students may choose to complete all 12-credits in a single semester, or split the credits over two semesters. Students choosing to split the internship credit into two, 6-credit, semesters are required to complete a minimum of 260 clock hours at the internship site each semester. **Graduate** students in the Human Performance concentration may elect to complete between 3 - 9 credits of internship to count towards their degree. Each registered credit of graduate internship requires a minimum of 48 clock hours be completed and a graduate student must register for at least 3 credits in any semester they intend to complete an internship. Therefore, a graduate student will be required to complete between 144 - 432 hours during their internship. Ideally, interns become exposed to the tasks that will be required of them as professionals in the field, as well as receive opportunities to develop their skills and areas of interest. A brief description of our undergraduate and graduate programs is below:

APK Undergraduate Program: Prepares students to function as an exercise technician, exercise specialist, and/or wellness instructor in hospital, corporate, private, or governmental agency, to pursue graduate study in kinesiology, OR to pursue graduate study in a health profession requiring education beyond an undergraduate degree. The curriculum provides a strong basic science background and requires additional course work in the biological aspects of exercise. Students may pursue internship opportunities in healthcare, research, fitness, or other areas of human performance.

Human Performance (Graduate): The Human Performance concentration is a non-thesis program leading to a Master of Science degree in Applied Physiology and Kinesiology. Its purpose is to train students for careers where they can promote scientifically based exercise, wellness, and psychological factors to enhance health, athletic development and/or movement performance. Furthermore, students may be trained to be an integral part of a health care team that administers, assesses, and develops programs for clinical, general public, or high-performance populations.

Please review the [APK Internship Policies and Procedures](#) Document to gain a better understanding of the expectations of students and site supervisors during the experience. Note that clicking the link to the Policies and Procedures manual will take you away from this survey and cause any information input into the survey to be lost. We recommend holding the ctrl button on your keyboard when clicking the link to open it in a new browser tab.

Q5. Organization Name

NEUROCOGNITIVE AND BEHAVIORAL DEVELOPMENT LAB

Q6. Organization Address(es) - Include Addresses Of All Locations To Be Included As Part Of This Approval

1864 Stadium Road, 152 FLGym, PO Box 118205 Gainesville, FL 32611-8205, USA

Q10. URL of Website For Organization

<https://nbd-lab.wixsite.com/mysite>

Q7. Name of Individual who will receive applications from students and whom students should contact about Internship availability

ellenparks@ufl.edu

Q8. Email Address of Individual who will receive applications from students and whom students should contact about Internship availability

ellenparks@ufl.edu

Q9. Phone Number of Individual who will receive applications from students and whom students should contact about Internship availability

NA

Q34.

Will the person receiving internship applications from students be the same person supervising the student and completing the student evaluations during the internship?

Yes

No

Q11. Name of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

This question was not displayed to the respondent.

Q12. Email Address of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

This question was not displayed to the respondent.

Q13. Phone number of Individual Who Will Supervise Students Directly During Internship and Complete Student Evaluations

This question was not displayed to the respondent.

Q14. What Semester(s) Is Your Organization Available To Accept Interns? (select all that apply)

Fall (August - December)

Spring (January - April)

Summer (May - August)

Q15. APK Internship Policy requires that a site supervisor hold one degree higher than the student intern. This means that site supervisors of undergraduate interns must hold at least a bachelor's degree and those of graduate interns must hold at least a master's degree. Based on this policy, for which category of students is your organization willing to accept applications? Check all that apply

Undergraduate Students

Graduate Students

Q16. How many interns is your organization willing and able to support per semester?

1

Q35. APK Undergraduate students are permitted to complete a single 12-credit (520 hour minimum) internship in a single semester or two, 6-credit (260 hour minimum) internships over two semesters. Are you willing and able to provide a part-time internship experience (~20 hours per week), full-time (~40 hours per week), or either to our undergraduate students depending on the student's internship plans?

Part-Time Internship (~20 hours per week)

Full-Time Internship (~40 hours per week)

Either Part-Time or Full-Time depending on the student's internship plan

Q17. Describe the normal working hours anticipated for an intern at your organization. Please indicate likelihood and circumstances surrounding any evening or weekend time commitments.

Work hours are Monday through Friday afternoons. In very rare cases, the candidate may be required to work on weekends if testing sessions are scheduled. When this occurs, the candidate may receive additional compensation or substitute weekend hours with regular business hours.

Q18. Does your organization offer non-paid or paid internships?

Non-paid

Paid (amount)

Q21. List other benefits your organization offers interns (i.e. housing, health insurance, travel reimbursement, etc.)

NA

Q22. List required purchases for interning with your organization (i.e. parking pass, uniform, I.D. Badge, etc.)

The ideal candidate should hold a valid driver's license and be able to drive. This position does not require daily driving; however, on rare occasions, the candidate may be asked to use a department vehicle or their own vehicle to transport study participants or human biological samples on campus.

Q23. List required skills or previous experience necessary for interning with your organization

- Valid driver's license and ability to drive - Strong verbal and written communication skills - Excellent time management and organizational abilities - Highly motivated, reliable, and persistent - Ability to accept constructive feedback and adapt to changing situations - Strong attention to detail and commitment to accuracy

Q24. List any special credentials or documents required to intern with your organization (i.e. CPR/First Aid, Liability Insurance, Personal Training Certification, OSHA training, HIPPA training, Pre-Internship orientation, background check)

Q25. Provide a bulleted list of duties/responsibilities your organization expects to be fulfilled by interns:

The candidate will serve as a research coordinator assistant in our lab. Primary responsibilities include, but are not limited to, the following: - Data entry and data sharing - Data post-processing and organization - Participant identification and recruitment support - Transportation of study participants and human biological samples - In very rare cases, the candidate may be required to work on weekends if testing sessions are scheduled.

Q26. Please describe a typical day for the intern:

Work hours are expected to be Monday through Friday afternoons, although the candidate may coordinate specific hours with the research coordinator (e.g., noon-4 pm or 11-3pm). The candidate will be responsible for the tasks outlined above. Depending on study timelines, the candidate may focus on a single task over multiple days or work on multiple tasks within a single day.

Q28. All Interns (undergraduate and graduate) MUST be evaluated on **at least 6** of the following 9 Student Learning Outcomes (SLO's), though evaluation of all 9 is preferred. Please check each SLO that applies to the duties/responsibilities provided to interns at your organization.

| <input checked="" type="checkbox"/> Integrate principles and methods of math, social sciences, and/or arts and humanities to applied physiology and kinesiology, health, wellness, and/or fitness environments. | <input checked="" type="checkbox"/> Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments. |
| <input type="checkbox"/> Identify and relate the nomenclature, structures, and locations of components of human anatomy to health, disease, and physical activity. | <input checked="" type="checkbox"/> Solve applied physiology and kinesiology problems from personal, scholarly, and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical, critical, and creative thinking. |
| <input checked="" type="checkbox"/> Identify, examine, and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems). | <input checked="" type="checkbox"/> Collect, compare, and interpret qualitative or quantitative data in an applied physiology and kinesiology context. |
| <input checked="" type="checkbox"/> Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles. | <input checked="" type="checkbox"/> Effectively employ written, oral, visual, and electronic communication techniques to foster inquiry, collaboration, and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients, and/or subjects. |
| <input type="checkbox"/> Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training, and physical activity. | |

Q33. Name of APK student that requested the site approval form from you (if applicable)

Q29. Would you like to be added to the Department's list of approved sites for future interns?

Yes

No

Q32. Have you reviewed the APK Internship [Policies and Procedures Manual](#)? Note that clicking the link will take you away from this survey and any information input into the survey will be lost if you navigate back. We recommend holding the ctrl button on your keyboard when clicking the link to open it in a new browser tab.

Yes

No

Q30. Signature of Individual Who Will Be Receiving Internship Applications

× Zheng Wang clear

Q31. Signature of Individual Who Will Be Supervising And Evaluating Students During The Internship

This question was not displayed to the respondent.

Location Data

Location: [\(29.6138, -82.386\)](#)

Source: GeolIP Estimation

The map displays a portion of the state of Florida, highlighting the Jacksonville area. A yellow pin is placed on the map, indicating the specific location. Other cities shown include Tallahassee, Gainesville, Orlando, and Tampa. The map is overlaid on a light blue background representing the ocean.

Approved: 1.26.26
